1. A large munitions depot [ ] is south of Budapest, near the corner of Budaörsi ut and Kőerbereki ut, on the grounds of the former Hunyady Janos Mineral Water Company. The size of the area is 800 by 600 m.
2. The depot is surrounded by a barbed wire entanglement, more than 2 m. high and 1.5 wide. The area can be completely illuminated by searchlights, but this is not customary.
3. There are paved connecting roads from Kőerbereki ut and Balatoni ut. The depot is connected with the Kelenföld railroad station by means of a spur line.
4. There are four 15 by 10 m. one-story store buildings, a 50 by 25 m. two-story building; also six to eight 30 by 12 m. wooden barracks, somewhat sunken into the ground and surrounded by protective walls.
5. The depot's capacity is 21,000 cubic meters. It now holds 150 carloads of ammunition: 100 carloads of small ammunition for planes and 50 carloads of bombs. There are 12.7 mm. regular and tracer bullets, 25 mm. HE and AT ammunition, 37 mm. explosive and incendiary ammunition. The bombs are stored singly in crates, with their fuses separate; fuses and bombs are numbered for assembly. They consist of 10, 25 and 50 kg. incendiary bombs and 50, 100 and 250 fragmentation bombs. The cases of the incendiary bombs are brown, those of the fragmentation bombs green.
6. Commander is Capt. Péter BALOGH. Including the firemen there are 48 workers at the depot. The guard consists of two noncommissioned officers and 15 men, who communicate daily from the airfield barracks at Budaörs.
